# *GADGET SLEEVES BY STYLEMY*

You don't need to be a techie these days to have multiple gadgets which you use on a daily basis. Many people in fact have more than one gadget they use on a constant basis. This is why, a new sleeve for a dear one's phone, tablet or laptop can make a very welcomed gift.

If you are not sure what style to get someone, you can get them something seasonal, for example a sleeve with a Christmas print. If you are looking for stylish sleeves, you can find a great range of products on the StyleMy website, which offers gorgeous sleeves for almost any type of gadget. You can even get a wood-like sleeve for an iPhone, which is a really interesting idea.

# *SUNGLASSES BY PARASITE EYEWEAR*

There are some things that a person cannot have enough of. Sunglasses are one of those things. It's basically rare to hear someone say "I have too many sunglasses". The reason for this is because sunglasses are an accessory that is useful year round: in the summer they protect you from the bright sunlight and in the winter they protect you from the intense light reflected by the snow. And, given the fact that one usually changes outfits everyday, the combinations with different sunglasses are endless.

If you want to gift someone a pair of sunglasses (or regular glasses frames) that have a great design, are practical and have a cool backstory, meaning they are worn by celebrities, we definitely recommend checking out the latest designs from Parasite Eyewear. The label has made a name for itself in the industry as being very out there with their designs and being a celebrity favorite. They offer so many styles that it is hard not to find something to choose from, so they're definitely on our recommendations list!
